

3 Easy Pieces How to use your EZ Back Brace

Belt only with no panels
soft support and
maximum flexibility

Add posterior panel
for upper/lower back
support

Optional anterior
extender panel

Panels are easily moved by just detaching
and reattaching the velcro attachments

One or both panels may be used to support
the lower lumbar spine & adjusted as desired

The panels mold to your natural
contours from your body's heat to
assure a perfect fit allowing dynamic
healing through protected motion.
